

Commercial terms	FOB Shenzhen/Guangzhou/Hongkong
Production capacity	500,000PCS/month
Payment	T/T, PayPal.
Delivery time	3-7 working days to make the sample. 10 to 15 business days for production.
Packaging	standard export cartons/customized cartons
Shipping	By sea, by air or by express delivery (DHL/UPS/FEDEX)
MOQ	100PCS
Birthplace	Dongguan, Guangzhou, China
Certification	CE, FCC, ROHS, REACH, UKCA

Product characteristics:

This cable is intended for use with a PowerPlus Connection and thus no power supply is needed. The PowerPlus Port draws power from a special Power Plus Interface on the POS PC. Normal USB will NOT power this printer. Please ensure this is the model you require and your POS PC will support the PowerPlus USB technology

6Ft/1M EPSON IBM 24V 1X8 Powered USB Plus Cable for Printers Retail POS Terminals, Systems

This High-End cable provides the ability to supply power and communication signals using a single cable. The new innovative powered USB technology is extremely useful for the retail POS, industrial, security and for medical devices. It provides genuine, and convenient single cable plug-and-play connectivity and is supported by high quality design and construction needed to support the complex new devices. It provides superb grounding and protection for all components, as well as protection against the normal wear and tear that can result from repeated insertions and removals.

Overview:

- This 24v 1x8 PoweredUSB cable provides a single cable connection that supplies both the standard USB communication signals and extra power.
- The design of 24v PoweredUSB cable and its connectors allow for hot-plugging.

- This combined with Plug-and-Play operating systems allows USB power cable to be easily maintained and supported in the retail environment.
- One of the limitations of standard USB is the amount of +5V current available to supply attached peripherals. Normally, 500mA is available at each host port and each powered external hub port.
- This amount of current is sufficient for most PC type peripherals like mice and keyboards. However, when the power requirements exceed the 500mA limitation, external peripherals require the use of an external power supply (brick) to supply the necessary power requirements.
- This limitation takes away from the true "Plug-and-Play" idea conceived for USB peripherals. This PoweredUSB cable provides that functionality. This 6ft 24V to 1x8 Powered USB Cable features one 24v Powered USB Connector as well as one 1x8 Pin Connector, providing a durable 6ft connection for Powered USB devices such as POS printers, etc.

Technical Specs:

Connector A: 1 - PoweredUSB 24V (8 pin; Host Side) Male

Connector B: 1 - PoweredUSB 1x8 (8 pin; Remote Side) Female

Cable Length: 6 ft [1.8 m]

Company Introduction

Gochain technology Co.,ltd. is a professional manufacturer of custom cable assemblies, manufacturing custom usb cables, manufacturer of magnetic pogo pin cables, medical ecg cables, supplier of targus clip electrodes, PoweredUSB extension cables, Ethernet cables, medical plugs and chargers, wiring harnesses and computer cables, founded in the year of 2015 and we have 2000 square meter custom cable assembly workshop, around 80 workers, 1 shift is 8 hours per day. We follow international ISO management standard to manufacture our custom cables, medical cables and chargers with Chinese factory price.

Certificates:

Goochain custom usb cables, medical cables, computer cables, Pogo pin cables, USB type c cables, USB type C connectors, PD fast chargers, PoweredUSB extension cables, all have passed the required international certificate so that we can export to the whole world. world,

ZhongRen HeZong Certification (Shenzhen) Co., Ltd

Medical device management system mark of conformity

Certificate NO: 64622B80236ROS

We hereby certify that

Dongguan Goochain Technology Co., Ltd.

Unified Social Credit Code: 91441900MA4UTNP60C

Registered Address: Room 302, Building I, No. 8 Kangyang street, Shebei Village, Huangjiang Town, Dongguan City, Guangdong, China

Production / Business Address: Room 302, Building I, No. 8 Kangyang street, Shebei Village, Huangjiang Town, Dongguan City, Guangdong, China

Upon review, the organization's medical device management system meets the standards: :

YY/T0287-2017/ISO13485:2016

Certificate coverage:

Manufacturing and Sales for wires and cables that involves to Medical devices' s management activities.

Date of Issue: June 7, 2022

Date of Expiry: June 6, 2025
